

## **Essential information when attending this year's flu clinics**

Our Saturday clinics are being run differently this year, to allow for the necessary social distancing and staff/patient protection needed for COVID-19 considerations.

It is ESSENTIAL that you follow the instructions below when attending our Saturday flu clinics:

- Any waiting/queuing will take place outside.
- Arrive as close as possible to the time of your appointment. If you turn up too early or late we will not be able to accommodate you.
- Wear suitable clothing so that your bare arm can quickly be made available for vaccination
- Do not bring anyone with you unless essential.
- Only bring the minimum of personal belongings with you
